Profile

I am a passionate Motivated and detail-oriented software engineering student at Mekelle University seeking an internship opportunity in a dynamic software organization. Eager to apply my programming skills, problem-solving abilities, and passion for technology in a practical setting to contribute to innovative projects.

Education

2019 – present	BSC in software engineering
Mekelle, Ethiopia	<i>Mekelle university</i>

Projects

Modern online food ordering

food ordering ,web application

Modern Online Food Ordering System is a web-based platform designed to streamline the food ordering process for restaurants, cafés, and food delivery businesses. Built with a user-friendly interface and secure backend, this system allows customers to browse menus, place orders, and make payments online, ensuring a seamless dining and delivery experience.

Sos School

student registration system

SOS is a web-based student registration system developed using PHP. It is designed to streamline and simplify the process of student enrollment, record management, and administrative tasks for educational institutions.
